

## Safety Warning

### IMPORTANT INFORMATION REGARDING THE SAFE OPERATION OF YOUR CaféPro COFFEE MACHINE

Your CaféPro is fitted with a Pressurised Steam Boiler. The Boiler has a max operating pressure of 2Mpa.

The CaféPro therefore falls within the scope of the Pressure System Safety Regulations 2000 (PSSR). The Regulations apply to owners and users of systems containing 'relevant fluids' (which includes steam).

The owner of this machine is responsible for ensuring compliance with the PSSR. For reference please see: <http://www.hse.gov.uk/> and search Pressure System Safety Regulations 2000. Dualit recommend that the owner reads the PSSR.

HSE require owners to consult your third party liability insurance company who will be able to advise on the necessary actions required. These actions may include, but are not limited to the following:

- Have a written scheme for periodic examination before use
- Periodic Examination following this written scheme
